same household can surf securely online  
at all times.

Secure surfing on the Internet.  
**With the new Cyber Security  
Insurance.**

# More relaxed surfing: comprehensive protection in cyberspace.

**For everyone living in the same household:** The Internet and electronic media are part of our everyday lives. We manage our bank account online, shop in web shops, write emails, chat and exchange confidential information. The risks associated with this are dramatically increasing.

**Protect yourself against the dangers:** You can pay securely online using your credit card. There are also no financial losses for you in the event of fraud if you complied with the obligation to exercise due care. However, there are other dangers lurking online: Criminals hack computers, steal personal data or blackmail you for money. More than 10,000 suspected cases are currently received every year and that number is rising. If in any doubt, be suspicious!

**Quick and professional assistance in the event of a claim:** Whether it's data fraud, a computer virus with malware, data loss or cyber mobbing – this insurance offers you tailored protection. We organize specialists who help you and we meet your costs.

Insurance benefits*	Insured sums in CHF per event no excess
 <b>Data recovery (saving or restoring data)</b> Costs for the removal of malware and data recovery; limit of two insured events per calendar year	5,000

\* For details of insurance benefits, please see the General Terms and Conditions of Insurance, which you can find at [swisscard.ch/en/gtcgci](http://swisscard.ch/en/gtcgci)

## Cyber Security Insurance.

### Data recovery (saving or restoring data).

Your smartphone or notebook falls to the floor and you can no longer access your photos and documents. Or your hard drive is infected with a virus and important data is lost. Photos, documents, work papers – we help you recover or restore valuable data and meet the costs for this.

### Online account protection.

Internet crime comes in many guises. It really hits your pockets when someone gets access to your post office or bank account through phishing online access and steals your money. In such cases we are responsible for ensuring you get what you are entitled to and your loss being reimbursed.

### Infringement of personality rights on the Internet.

Your social media account is hacked, private photos suddenly appear publicly, followed by hateful comments and being ostracized: a nightmare! We help you assert your personality rights with legal assistance and provide IT specialists to remove the unwanted content. If required, you also receive psychological support and you are even reimbursed the costs for moving house up to the sum insured.

### Online buyer protection.

Quite a bit can go wrong when shopping online even without any malicious intent. The wrong items are delivered, they're delivered damaged or don't arrive at all. We make sure that your costs are reimbursed in this case too.
